

next day. The Order is not now a popular one in Virginia City.

---

A SOCIETY, the members of which call themselves **Theosophs**, has arisen in New York. It holds that all the natural elements, solids and fluids, are inhabited by demons who are invisible ordinarily, but who can be brought to sight by some strange incantation known to the society. Shakspeare with his "invisible spirit of wine," appears to have anticipated this discovery, and it is highly probable that the demons of the **Theosophs** have a like genesis.
