Few people know that the beautiful lace known as Fayal lace is made from the fibres of the leaves of the bitter aloe, a relative of the common century plant. This lace is manufactured by women, and the necessary skill is so rarely attained that there are but about twenty-five persons on the islands-the Azores-who can make it. The art needs to be practised from childhood.

To Make Bread Crumbs. In preparing bread crumbs, save al crusts and pieces of bread and carefully dry them either in the oven or in warming oven, as a very moderate heat is required in order to dry the bread entirely through-not to toast or brown it merely on the outside If you have a meat-chopper, after the bread is thoroughly dry simply run the pieces through the chopper and they are ready to use. If you have not, th bread must be crushed and rolled, then sifted fine enough for using.

Wise Words for Women Light housekeeping is not always ac companied by light expenses.

A few plants and flowers will beautify any home where the lady of the house will not trust to her servants to see to her blooming treasures being kept clean and judiciously watered. The miller moth is getting ready for

her season's work. Get ready to head her off. She will do more damage in a month than you can repair in a year. What the average woman most needs is more sleep, less hurry, fewer calls and quieter home life.
